

## **The Association “Active Recreation in Latgale”**

### Active rest

The association “Active Recreation in Latgale” invites you to discover the enchanting natural landscapes of Krāslava County, the diversity of its lakes, and the natural flow of the River Daugava.

Little Switzerland — that's what tourists call Krāslava County.

While many tourism companies in Latvia offer people the chance to travel the world and explore the culture and nature of other countries, one of Latvia's most beautiful regions - Latgale - still remains a mystery to many Latvians. The Latgale region is characterized by its great natural and climatic diversity and, of course, by the hospitality of its people.

The jewel of Latgale remains Krāslava County — the Land of Blue Lakes - we have over 287 lakes, the fateful River Daugava, many small streams, and the “Daugava Bends” Nature Park.

Come and discover for yourself, your family, and your friends how interesting, exciting, and dynamic recreation in Latgale can be.

The pearls of Latgale still shine for travelers, enchanting them for a lifetime.

The association offers to organize individual or group recreation in Krāslava County.

“Active Recreation in Latgale” offers:

Rental of inflatable rubber boats;

Canoe rental;

Rental of necessary equipment (paddles, pumps, life jackets);

Transportation of equipment to the starting point and from the end point of the trip;

Upon your request — guide services.

To organize your leisure and reserve equipment, please contact the association “Active Recreation in Latgale.”
