

## “ĒDNĪCA NR.1" RETRO CAFE

### Café

The Retro Cafe offers Soviet-time cuisine and at the same time works as a shop, as every eatery's interior item is available for purchase.

The chef of the cafe is a professional dietician, who has 25 years of work experience. Therefore, guests are offered a balanced diet. In addition, cooked dishes are prepared using Soviet time recipes and technologies. Every day, the café serves a full breakfast and a business lunch. Special dishes of the cafe are homemade chebureki and pie “Charlotte”.

The cafe has a special interior made of old things – both furniture and various old items and interior elements: porcelain dishes, statues, etc., which have transformed the premises into museum. In addition, the “museum exposition” is still being supplemented with new exhibits. Thus, the created atmosphere reminds anyone of past times and gives the younger generation an opportunity to imagine how their parents and grandparents used to live.

A variety of thematic events are held at the cafe in the evenings and during holidays.
