

## Paintball and lasertag "Paintball D"

### Active rest

Paintball is a modern, quickly evolving adrenalin sport, which requires more than just speed, agility, strength and a good physical condition. During paintball you will need a great deal of tactical thinking while staying coolheaded. You will experience joy and euphoria from victory as well as disappointment, when you find out how easy it can be to lose.

Lasertag or laser paintball is a new kind of outdoor activities, exciting team game, tactical laser battles, available to everyone, and it is completely safe. Laser tag is interesting and accessible to everybody – both adults and children, gathered, for example, in such a way to celebrate someone's birthday. Your sweet girlfriend and children will play it with pleasure. Our instructor will help to understand and master the game quickly.
