

## Raptors Park

### Active rest

The park is for relax and walk, where everyone can get acquainted with different birds and animals. There are many species of exotic birds in the park, such as rare owls, ostriches, pheasants, peacocks, white-necked raven, eagle and hawk. In the zoo live also fallow deers and horses (Gypsy horses). The pony, on whose horseback you can ride a child, is waiting for your visit.

You can see also the friendly goats, who will gently taste treats from your hands, as well as the baby goat Toshka, who will guide you through the place, where he lives.

The owners of the zoo will tell about the park and the world of owls. There is an inflatable trampoline with a slide for children in the park. In the zoo are tables and benches, so those who want to relax from the bustle of the city, are welcome.

The zoo is located in the Demene parish (Brīģene), turn onto the Jāņuciems road and after 400 meters you will come to us!
