

De Kriek distillery

It is a small, family-owned distillery of whiskey and other spirits. The owners of the factory, traveling and observing how the world's leading producers of alcoholic beverages work, and working in small companies themselves, came to the conclusion that good whiskey, first of all, needs quality water, as well as love for their work and the manufactured products. The owners of "De Kriek distillery" found a spring with completely clean and soft water in Kalnieši. Visitors of "De Kriek" can have an excursion and participate in the tasting of drinks, by applying in advance.

Address: "Kalnini", Dervaniški, Kalniešu pagasts, Krāslavas novads, Krāslavas nov.
