

A specialized nut tree nursery "Riekstkalni"

Offers frost-resistant walnut seedlings from Canada suitable for Latvia's climate. Seedlings are grown from the seeds of trees of the best Canadian varieties, which can better adapt to Latvia's climate, soil and light regime. The products of the nursery can also be purchased in the online store, on the website www.riekstkalni.lv. A tour of the farm is also offered. Book your visit in advance!

Address: Ciems Malka, Andrupene, Andrupenes pagasts, Krāslavas nov.
