

The windmill of Pastari

Active rest

The only reconstructed hollandaise-type windmill with a rotatable mechanism of wind-catching.

The ground floor of the windmill has been built of broken boulders. The upper floors have been created of wood. The building is covered in board and shavings. On top of it is a rotatable upper part - "head" and "hat".

Address: "Pastari", Stabulnieku pagasts, Riebiņu nov., LV 5320

E-mail: tic@preili.lv

Coordinates: 56°25'41.2" N, 26°44'1.2" E
