

The park of Likсна manor (Likсна paths)

Active rest

The park of Likсна manor is situated in Daugavpils region. It is not possible to pass this place while driving to Riga because of magnificent symbol of Likсна village - big Roman catholic church which was built in 1912 in neo gothic achitecture style. In 1999, a walking path was made by the inhabitants of Likсна village, every year this path is been extended. Everybody can see different creations made of stone, metal and wood while walking the path as well as find out that this path rode a horse Polish national hero - Emilia Plater, who used to live in Likсна in 19th century. Emilia because of her lifestyle and character was always compared to Joan of Arc. A portrait of Emilia Plater which was drawn by Sandijs Greiškalns is kept in a library of Likсна parish. In the park of Likсна manor a historic architectural monument - the chapel of Likсна manor, is located.

The park of Likсна manor is very popular among newlyweds. Thanks to LMT (mobile communication company) and a craftsman - Valērijs Konstantinovs, a new design object was put in the park in 2015 - "The Tree of Love". Since then newlyweds can put a lock on it as a symbol of being unseparable during all their life.

Moreover, in Likсна village it is possible to get acquainted with village's local history, visit inspiring church, enjoy different activities in the park and visit local craftsmen.
