### Cultural-historical objects

**Description:** Catholic Church in Grendza was built in 1907. The church in Grendza don't have towers, 30x15x12 big. The church has roof from leading. The enterdoors are from the back of the church, from the sides of the church and also from the two sacristies. On the both sides of the church are 3 windows on each side, and 1 window on each sacristy. There is the the arcuate altar. Around the church's garden is concrete fence with a slate roof. The church is one nave building, the floor of cement, ceiling of round logs, the choir is based on the wall pillars. There is no organ, but only a harmonium.
